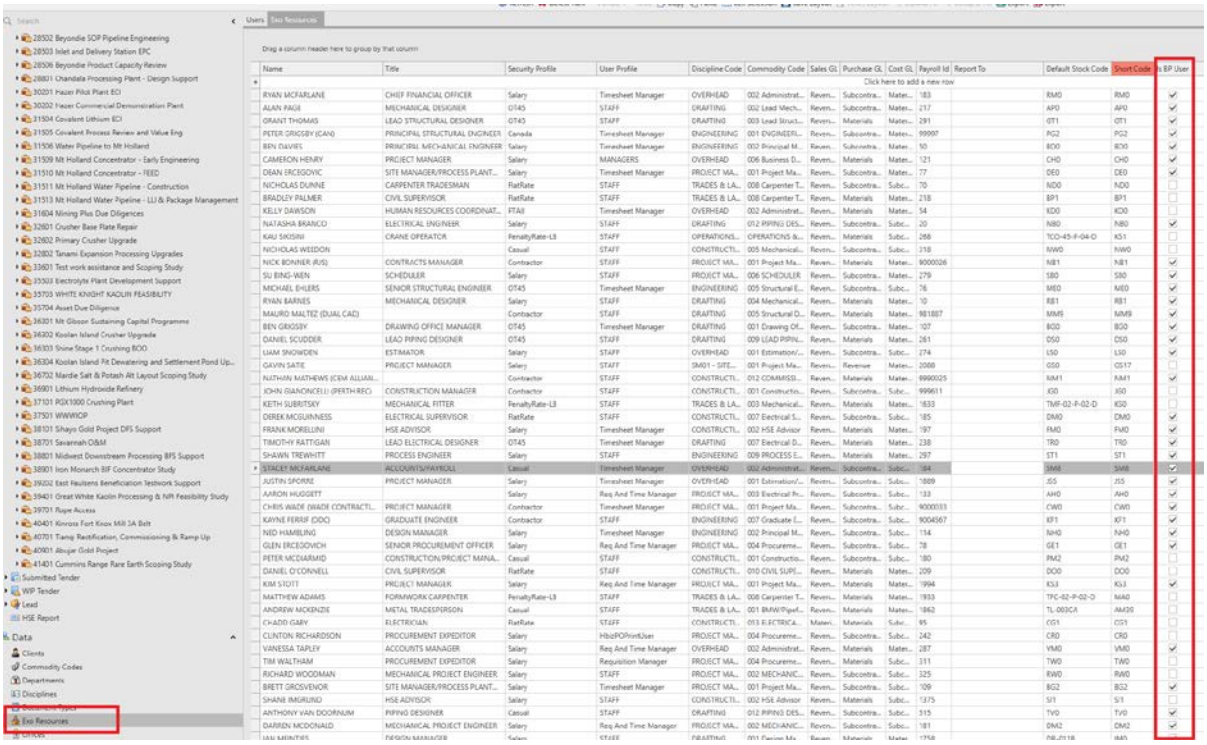
Change Log 2nd June 2021

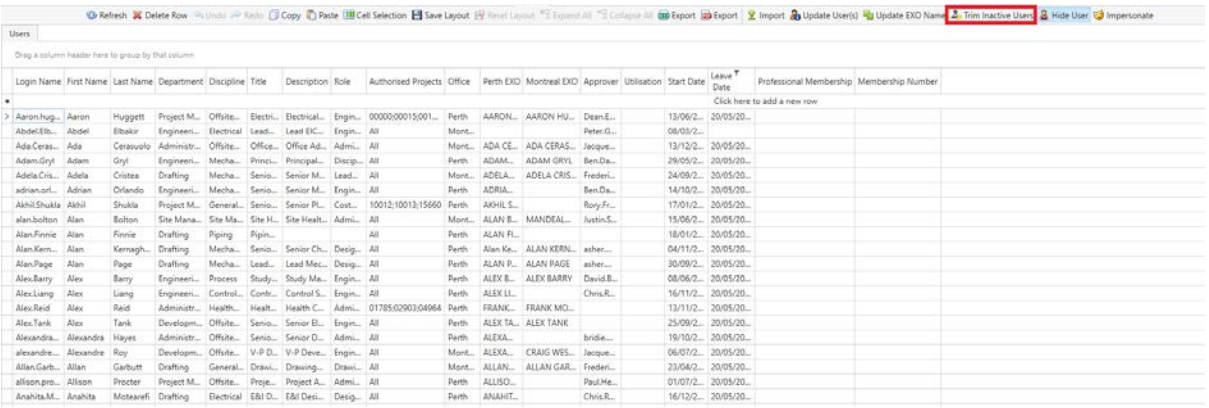
- Exo Resources
  - Allow addition of BP user from EXO Resources by checking “Is BP User” checkbox



- Exo -> Transactions
  - Allow slower load times but faster edit/sort/filter operation by clicking “Download Data”, preference is saved for all projects

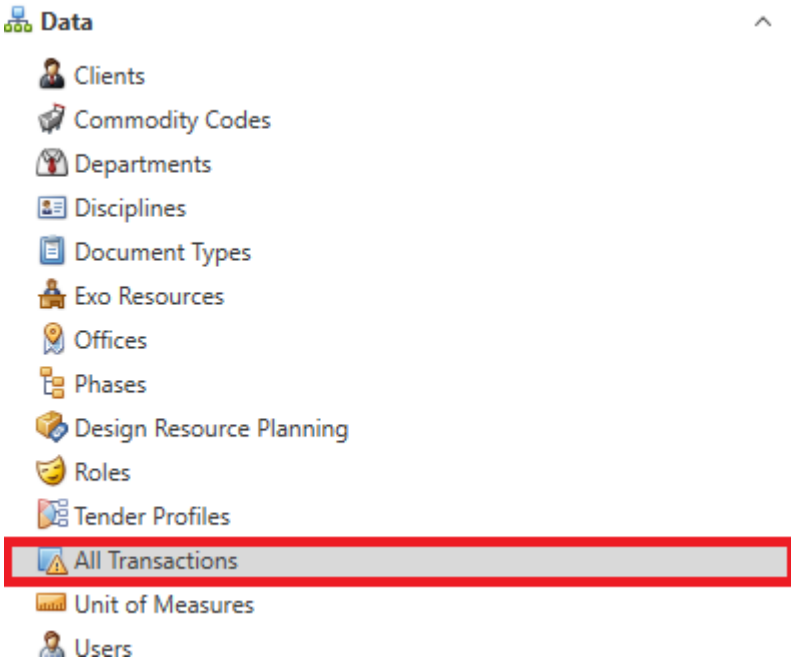
Change Log 20th May 2021

- Added option to trim inactive users by referencing EXO (according to user’s office). Trimmed users will have “Leave Date” set as today



Change Log 18th May 2021

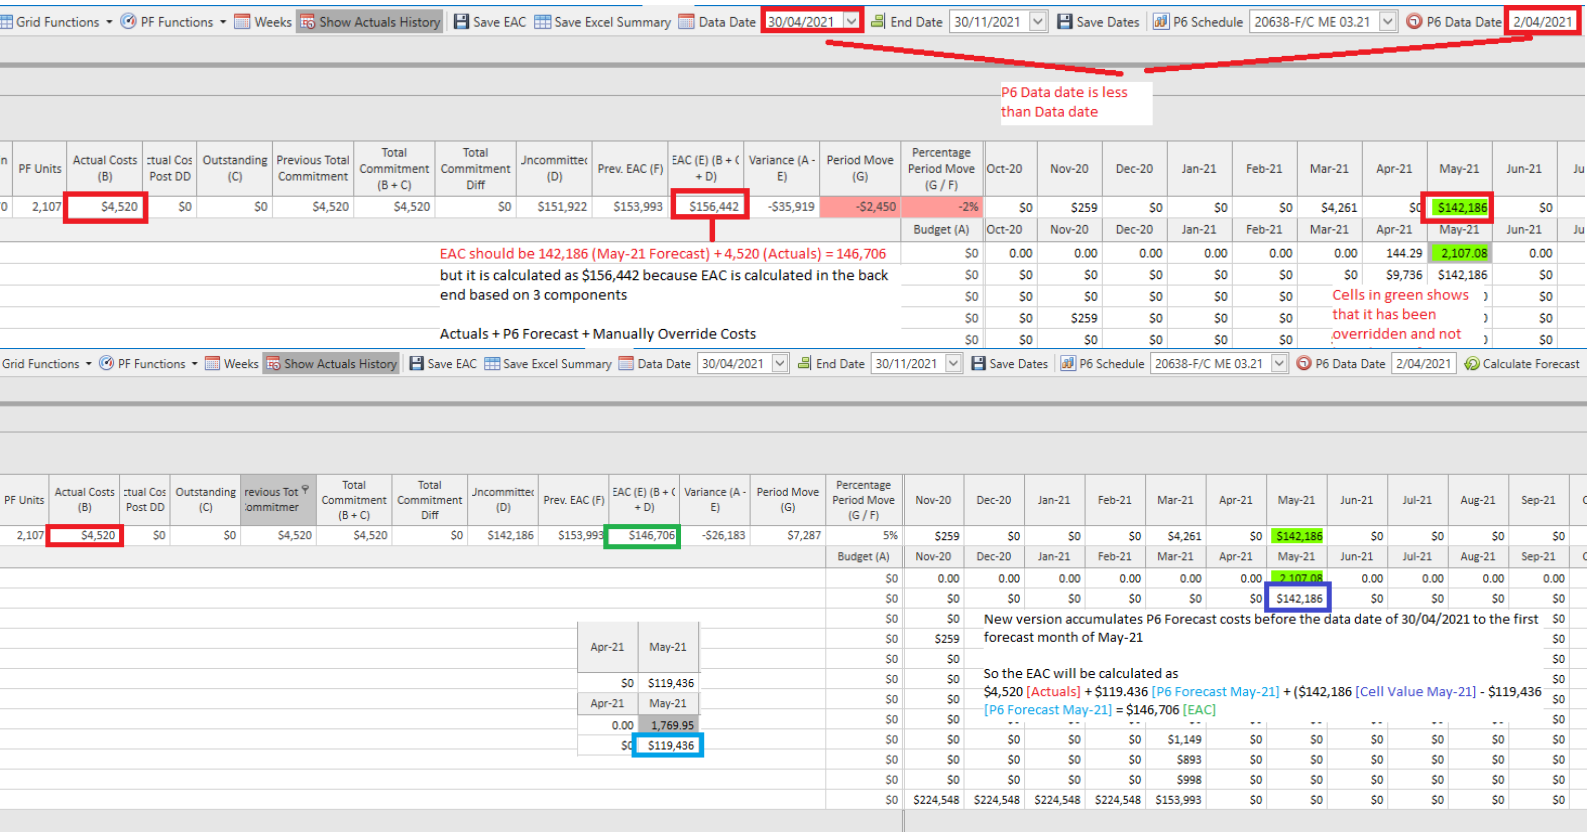
- Transactions to date is changed to All Transactions



- EXO -> Transactions
  - Changed back end to server mode so that data is streamed from server
  - Only issue is program will blink when updating records

Change Log 23rd April 2021

- Forecast
  - Fixed a bug where EAC gets calculated incorrectly when P6 schedule data date is less than forecast data date



Change Log 9th April 2021

- Design Cost/Charge Rate
  - Added area and subarea category

Default Columns				
Area	Sub Area	Discipline	Department	Doc Type
Any	Any	Control Systems	Engineering	Any
Any	Any	Vendor	Drafting	Any
Any	Any	Piping	Drafting	Any
Any	Any	Process	Engineering	Any
Any	Any	Instrumentation and Control	Engineering	Any
Any	Any	Civil	Drafting	Any
Any	Any	Mechanical	Engineering	Any

- Construct Cost Rate
  - Added area, subarea and variation category

Drag a column header here to group by that column

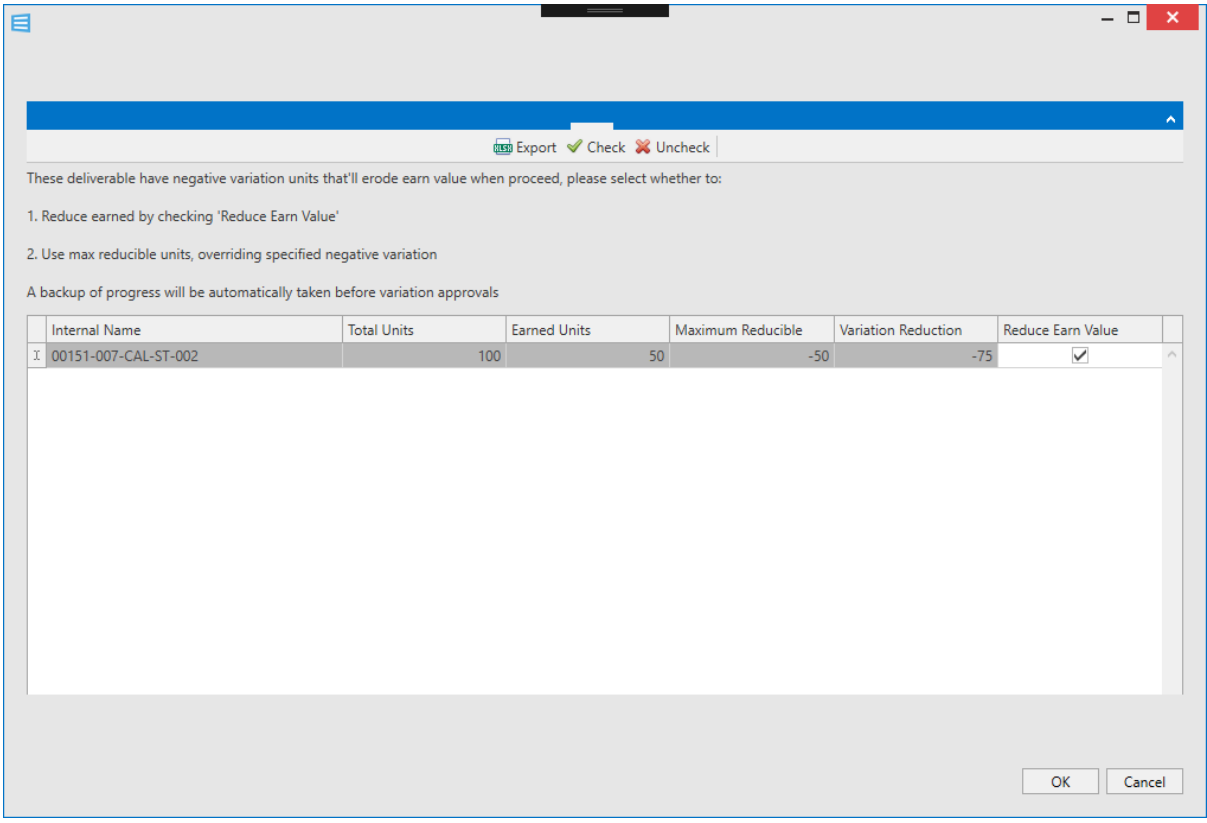
Change Log 8th Feb 2021

- Design -> Variation
    - Added ability to auto reduce earned hours from latest date onwards to accommodate negative variation hours

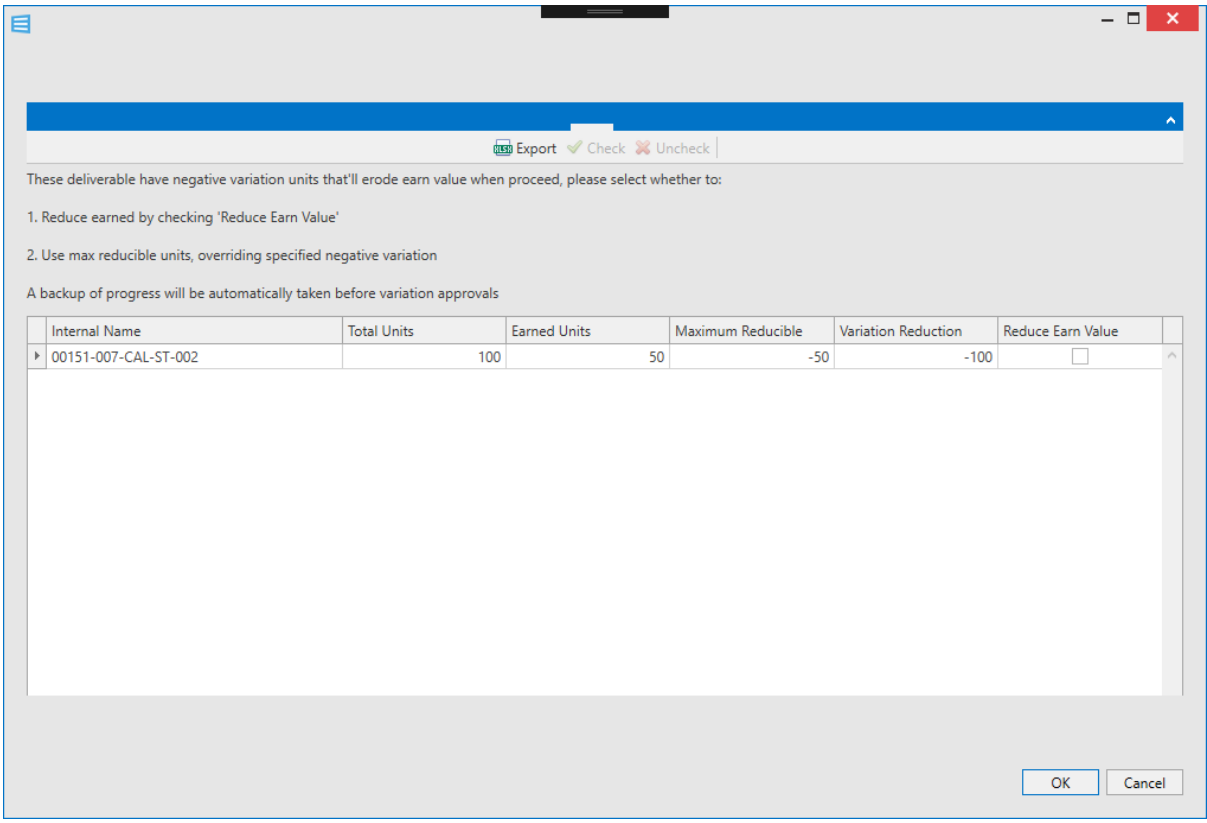


In this instance, deliverable have 100 total hours and 50 hours already earned, but variation defines a 75 hours reduction, two options are available during approval

- Reduce earned hours ticked – Earned units will be reduced to 25 so that 75 hours reduction can be applied
- Reduce earned hours not ticked – Variation hours will be changed to 50 hours reduction instead of 75, as defined by maximum reducible units column

Cont. Change Log 8th Feb 2021

- Added ability to reduce earned units when variations are unapproved

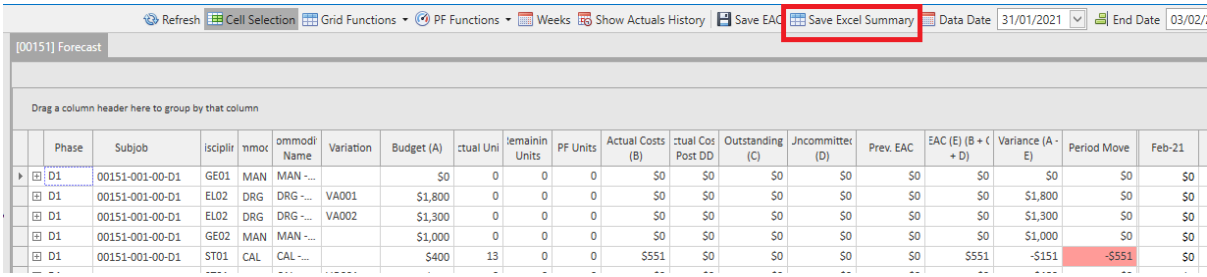


For instance, a variation that was previously approved with 100 hours is now in the process of unapproval. Since 50 hours has already been earned, 2 options are available during unapproval

- Reduce earned hours ticked – Earned units will be reduced to 0 so that unapproval with 100 hours taken away from the deliverable can take place
- Reduce earned hours unticked – Earned units will not be reduced, but user will see negative 100 hours remaining in progress

Change Log 27th Jan 2021

- Forecast
  - Added ability to save forecast data to be retrieved by excel



Change Log 25th Jan 2021

- Project S-Curve
  - Added ability to move data date forward/backward
  - Added ability to disable report date auto change to previous period ending

- Progress
  - Added ability to disable report date auto change to previous period ending

Change Log 30th September 2020

- Exo -> Jobs
  - Not showing cost group and cost type error when stock code is VA001
  - Only validate cost group and cost type for new item in master job
  - Show duplicate error when committing to EXO
- Design -> Variations
  - Variation codes are pushes with default stock code item without cost group and cost type so that it doesn't clutter up forecast view

Change Log 11th September 2020

- Construction -> Variation
  - Allow negative values for revenue
- Construction -> Variation -> Variation Items
  - Remove cost group and cost type
  - Filter sub job in construction variation to show valid sub job codes only
  - Show cell error when sub job codes isn't valid for chosen type

Change Log 10th September 2020

- Forecast -> Forecast
    - Show empty cost group and cost type in forecast to accomodate variations without cost group and cost type coming from construction variation module

Change Log 9th September 2020

- Exo -> Jobs
    - Fixed an issue where committing to EXO resulting in empty cost group and cost type

- Design -> Risk Register
    - Revised risk register matrix

Change Log 7th September 2020

- Design -> Progress
    - Fixed an issue where at completion units doesn't match budgeted units when pushing to P6
    - Add a checkbox to allow certain projects to have current week ending data date
    - Added a button to copy start date to target start date and due date to target end date

Change Log 4th September 2020

- Design -> Progress
    - Data date will automatically change to current week data date when current day is the day of week for current week's data date

Change Log 1st September 2020

- Exo -> Jobs
    - Not validating/show errors on cost group and cost type when variation stock code is used

- Construction -> Variation
    - Group jobs by Sub Job code and commit to Exo using default stock code

- Forecast -> Forecast
    - Use total unapproved variation revenue to show unapproved revenue in forecast view

Change Log 24th August 2020

- Construction -> Variation
    - Added construction variation module
      Tutorial

Change Log 29th July 2020

- Forecast -> Forecast

    - Added column to show actual labour units post data date

Change Log 22nd July 2020

- Forecast -> Forecast
    - Removed colors from actuals history

Change Log 21st July 2020

- Exo -> Transaction, Exo -> Purchase Orders
    - Added stock code

Change Log 17th July 2020

- Design -> Deliverables / Progress
    - Added show variation name and approve units column

    How to check variation name and approved units

Change Log 15th July 2020

- Design -> Deliverables
    - Added hidden column to allow subcontract hours to be excluded from forecast
      How to exclude subcontract hours from forecast
